

Cloud Manual Launch Guide

webLogger II

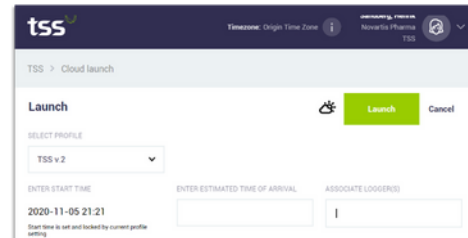

1. Access TSS Cloud

1. Click here to access:
<https://start.ccis.se/>
using your regular login details
2. Select "Cloud Launch"

2. Profile & Triptags

Select profile and enter triptag information manually

The screenshot shows the 'Launch' section of the TSS Cloud interface. It includes a 'SELECT PROFILE' dropdown menu set to 'TSS v2', an 'ENTER START TIME' field with the value '2020-11-05 21:21', an 'ENTER ESTIMATED TIME OF ARRIVAL' field, and an 'ASSOCIATE LOGGER(S)' field. A green 'Launch' button is visible at the top right.

3. Associate & Launch Loggers

1. Scan logger IDs located at the back of webLogger II to associate it to the shipment

2. Click "Launch"

The screenshot shows the 'ASSOCIATE LOGGER(S)' section of the TSS interface. It contains three input fields with the following logger IDs: 'B1E2020110300014 x', 'B1E2020110300015 x', and 'B1E2020110300016 x'. A green 'Launch' button is located at the bottom right.

4. Logger Started – Attach to shipment

Press and hold the START button for 3 seconds. Green light will flash indicating logger has been started. Attach to shipment.

5. Verify Logger Status

Press START button once to get logger status: If green light is shown the logger is running. If red, the logger is stopped.
